

FIREGUARD WET CHEMICAL EXTINGUISHERS

Wet chemical Fire extinguishers are the new innovation for cooking fat fires. Wet chemical is the most effective means for extinguishing fires involving deep fat fryers. The solution cools and emulsifies when applied to burning fats and oils.

The Fireguard brand is widely recognised and trusted by resellers and end-users alike. In the 12 years that Fireguard extinguishers have been established in the UK & worldwide fire market they have become synonymous with quality and reliability.

- 2 year guarantee
- Approved to BSEN3
- Designed, developed and tested in UK
- MED approval for appropriate models
- Corrosion resistant finish
- Multi-purpose application
- Squeeze grip operation
- Internal polyethylene lining
- Approved to 35kV dielectric test

Model	FGWC6-F	FGWC9-F
Capacity (Ltr)	6	9
Fire Rating	13A 75F	13A 75F
35kv Dielectric test	Yes	Yes
Height (mm)	433	474
Cylinder Dia (mm)	160	185
Overall width (mm)	160	185
Filled weight (kg)	9.5	14
Range of throw (m)	6	6
Discharge time (secs)	13	17
Working pressure at 20° C	15 bar	15 bar
Temperature range	+5 °C to + 60°C	+5 °C to + 60°C
